Helping financial professionals provide world-class solutions to their client's needs

### **No Paper! No Driving!** **Sell More Insurance Using Technology**

You want to sell a 500K Term policy to a client who is an hour drive from your office. In the past you didn't have many options other than spend nearly half the day visiting the client to take the application.

Now there is another option through [The Selario Agency](#) website.

We offer platforms where the request for life insurance (RLI) is completed online and electronically submitted to a carrier without having to leave your office.

#### **Here Is How It Works\***

You ask your client a few basic questions, submit the completed RLI to the carrier electronically, the carrier contacts the client, conducts the full interview and schedules the exam. If approved as applied or better the policy can be emailed directly to the client for delivery.

Now you can spend more time prospecting and less time with administrative hassles.

**Every Case Counts. Every Broker Matters.**

\* You must be licensed with the carrier prior to submitting applications.
